Our Story

IAMM's mission to assist those lacking proper medical care encompasses a profound commitment that comes with vast responsibility. Our work is a call to action and acknowledgment that millions are trapped in a time warp where sickness, unsanitary living conditions, poverty, disease and death run rampant due to a lack of access to proper medical treatment. It's incomprehensible and unacceptable that in today's medically advanced society, individuals are dying from diseases that can and have been successfully treated. At IAMM, we are dedicated to providing solutions and will continue our fight until every man, woman and child has access to needed healthcare.

Established in 2000, IAMM has conducted close to 30 medical missions nationally and internationally including Chicago, Illinois, Kansas City, Kansas, Washington D.C., Montgomery, Alabama, San Antonio, Texas, Haiti, Dominican Republic and Jamaica. Hundreds of accredited, medically trained professionals volunteer, giving of their time and expertise to save lives through proper diagnosis and distribution of thousands of dollars in pharmaceuticals. Add an army of administrative volunteers who are on hand to ensure proper protocol is being carried out, we bring exceptional services to those in need. Approximately 1,500 individuals receive care during any given mission. We are proud of our accomplishments, yet our work is far from done. We need your help!
